

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	25 June 2026
Team ID	
Project Name	Smart Lender
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

The Smart Lender project aims to develop an intelligent loan eligibility prediction system that assists banks and financial institutions in making faster and more accurate lending decisions. Through brainstorming sessions, the team identified various solutions including machine learning-based risk assessment, automated loan approval prediction, applicant analytics, and real-time decision support. After evaluating the feasibility and importance of each idea, the team selected an XGBoost-powered loan prediction system integrated with a Flask web application as the most effective solution.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

- 🕒 10 minutes to prepare
- 🕒 1 hour to collaborate
- 👤 2-8 people recommended

Step-1: Team Gathering, Collaboration and Select the Problem Statement

A Team gathering
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

B Set the goal
Think about the problem you'll be focusing on solving in the brainstorming session.

C Learn how to use the facilitation tools
Use the Facilitation Superpowers to run a happy and productive session.

Defining Your Problem Statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

🕒 5 minutes

selected problem statement

How might we help banks and financial institutions quickly and accurately determine loan eligibility while reducing manual effort, processing time, and lending risk?

Step-2: Brainstorm, Idea Listing and Grouping

Step-3: Idea Prioritization
