Project Name	Smart Lender
Maximum Marks	2 Marks

Customer Problem Statement Template:

I am a Credit Officer trying to evaluate loan applications quickly and accurately, but manual loan assessment is time-consuming and prone to human error because applicant data, credit history, income, and loan details must be analyzed across multiple factors, which makes me feel pressured and less confident in making consistent lending decisions.

I am	Describe customer with 3-4 key characteristics - who are they?	Describe the customer and their attributes here
I'm trying to	List their outcome or "job" the care about - what are they trying to achieve?	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way - what bothers them most?	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists - what needs to be solved?	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view - how does it impact them emotionally?	Describe the emotions the result from experiencing the problems or barriers

Example:

I am A Loan Applicant	I'm trying to Apply for a loan and know whether I am eligible for approval	But The approval process takes a long time and depends on manual verification	Because Banks must review multiple documents and assess risk manually	Which makes me feel Uncertain, anxious, and frustrated about my loan status
---------------------------------	--	---	---	---

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A Loan Applicant	Apply for a loan and receive quick approval	The loan approval process is slow and uncertain	Banks manually evaluate applicant information and credit history	Frustrated and anxious about my loan status
PS-2	A Credit Officer	Assess loan applications efficiently and accurately	Reviewing numerous applications manually takes significant time and effort	Multiple financial, demographic, and credit factors must be analyzed before making a decision	Overloaded and concerned about making incorrect lending decisions
